

Join us for the **Madison Math Circle!**

Monday, October 29
6:00pm, B223 Van Vleck Hall
UW-Madison Campus.

Beth Skubak will speak on
non-Euclidean geometry

Most of the geometry we see in school is based on the ideas of the Greek mathematician Euclid, who lived around 300 BC. While his ideas are pretty useful, we want to consider geometry in some “non-Euclidean” scenarios, like when instead of being flat, our surfaces are curved.

► **Come to discover—Come to explore.** ◀

FREE PIZZA will be served!!
